Why you should attend

For litigation purposes the answer is that we know some things, but not all that much. This program will take a look at what we know and more importantly what we do not know about how the brain works, and what we can do and what we cannot do to speak confidently about changes in brain function and brain-behavior relationships as we address these issues in civil, criminal and other kinds of litigation.

Presenters

Larry J. Cohen, Esq., Cohen Law Firm

****Larry is leaving Arizona and this will be his last presentation to the
Attorney General's Office on a Substantive Legal Matter; his last program
will be an ethics program on December 5, 2014****
